

Amateur Radio Emergency Service

Greene County, Missouri

**KEN BAREMORE
WØKRB**

Emergency Coordinator

To All Radio Amateurs:

The Amateur Radio Emergency Service (ARES) is a voluntary organization of licensed radio amateurs who have registered their capabilities and equipment for providing emergency communications in the event of natural disaster, when regular communications fail or are inadequate. Sponsored by ARRL, The ARES functions at the local level to meet local communications needs.

ARES has a long history of public service going back to its formal inception in 1935. Since that time the ARES has responded countless times to communications emergencies.

Experience has proven that radio amateurs respond more capably in time of emergency when practice has been conducted in an organized group. There is no substitute for experience gained before the need arises.

The ARES in each locality operates under the direction of the Emergency Coordinator (EC), whose function is to direct the activities of the ARES to maintain a state of readiness.

To register in the Greene County ARES, please fill out the attached form and return it to the Greene County Emergency Coordinator. Membership in the Amateur Radio Relay League (ARRL) is not required for registration. Registration does not require possession of any specially designed equipment. All amateurs can potentially be of assistance to ARES.

We try to make sure there is a position in the Greene County ARES group for every amateur regardless of class of license, equipment owned, or personal circumstances.

Please join us in providing this essential Amateur Radio Service?
